Tusker Group Now Certified to Train Legal Reviewers to Effectively Use Attenex® Patterns® E-Discovery Software

Tusker Group, a legal document review company providing high-quality and cost-effective solutions to corporate counsels and law firms, has become an Attenex Advantage™ Review Partner to better serve its clients in the rapidly evolving sphere of electronic document review. As a Review Partner, Tusker Group now offers a training and certification program to certify attorneys in the use of Attenex® Patterns® E-Discovery Software to identify and review electronic legal documents.

"Everyone at Tusker is really excited about receiving this certification and about the additional benefits we can offer our clients utilizing Attenex software," said John Thickett, Tusker Group's Chief Marketing Officer. "More of our clients are discovering the benefits of concept-based reviews and Tusker is pleased to be able to provide dedicated, high-quality document review attorneys certified to use this software."

Headquartered in Austin, Texas, and with secure facilities in India, Tusker Group helps legal professionals to comprehensively review electronic and paper documents. With more than 300 full-time, experienced associates and

supervisors, it provides both legal and corporate clients in North America and Europe with top-tier, cost-effective document review solutions. By assigning a dedicated team to each client, Tusker Group assures team experience and continuity in handling each client's cases. Tusker specializes exclusively in document review, delivering high-quality work product with significant cost savings, often 50% lower than domestic document review.

Attenex Corporation, based in Seattle, is an industry leader in producing software that helps law firms and corporations to efficiently process and review electronic documents.
